Introduction

The new 2025-2026 school year was also started at the Polytechnic No. 2 in gallaorol district. This day, memorable and joyful for the polytechnic community, the students and their parents, was celebrated in a unique way.

The new 2025-2026 school year was also started at the Polytechnic No. 2 in G'allaorol district. This day, memorable and joyful for the polytechnic community, the students and their path the new 2025-2026 school year was also started at the Polytechnic No. 2 in G'allaorol district.

The meeting considered the following issues:

A round table discussion was held. Students received detailed answers to their questions. During the event, the director of the polytechnic, Kh.S. Fayzullayev, spoke and sincerely congratulated all students, teachers and parents on the new academic year. In his speech, he touched upon the achievements of the polytechnic, future plans and prospects. He also paid special attention to improving the quality of education, introducing modern technologies into the educational process, and improving the professional skills of students.

The director of the polytechnic, Kh.S. Fayzullayev: “Our main goal is to train competitive personnel with modern knowledge and skills who can contribute to the development of our country”.

In the new academic year, the polytechnic is expected to launch dual education in Electrical Engineer Accounting and Gas Supply, and put modern laboratories and classrooms into operation. This will create an opportunity for students to receive education in more comfortable and modern conditions.

The event was also attended by graduates who have achieved success in their fields, shared their experiences and gave advice to students on how to become skilled masters of their professions in the future.

The new academic year opens the way to new opportunities and new successes for the team of G'allaorol District Polytechnic No. 2. We wish everyone success in achieving their goals and further improving their knowledge and skills this academic year!
